Additional recommendations, please tick as appropriate:

	YES	NO
TEF		NO
Master Degree	YES	
PGD	YES	
Other Certifications	YES(Trade certificate,Apprenticeship certificate and On the job training)	

- NOTES: The PA has BSC, Spouse has ND & BSC and they have both evaluated their degrees. PA is required to present PDE(Nursing Education 2016) or MSC(Public health 2018) to show smooth transitioning for the recommended health NOC and boost points for this application. To proceed with this application,PA is required to evaluate the recommended additional degree, they are both required to take IELTS and max out with the projected score as listed in the first slide. However, the higher your IELTS score, the higher your crs score and the better chance of getting faster selection.
- Spouse is required to present his bachelor degree certificate.
- According to her questionnaire, her current Job role falls under NOC 00012 which is a business owner NOC. This NOC will require her to provide a lot of business documents according to IRCC standard which she most likely may not be able to provide hence it is not advisable for this application. The recommendation below is given due to the recent category-based draw;
- For PNP Option A: (NOC 33102) which is a HEALTH NOC. For this you are required to present a Medical company such as; Hospital and Nursing home that is registered with online presence and active website to stand in as your employer, issue employment documents such as (Offer letter, Reference Letter, Pay slips, Bank Statement, Work ID card) and 12-18 months on-the-job training letter to further qualify you for the role. (Your SSCE certificate would be qualifying you for this NOC).
- For PNP & EEP:(NOC 72014) which is a Trade NOC. For this you are required to present a registered company such as (Housing Construction company) with active website and online presence that would stand in as your employer and also issue reference letter. Please note that this is a Managerial NOC and you are required to show progression from a Junior role (73112) for at least 3 years before progressing to Senior role.(Your SSCE certificate, 3 years Apprenticeship certificate and Trade certificate would be qualifying you for this NOC).
- **NOTE: Please note that the website for the companies should be functional from the inception of your application till you get your passport request.**

 - Means Milestone

NOTE: Kindly note that if you opt for any PNP option, there is an additional timeline of 3-6 months between pre-ITA and ITA depending on the province selected. The projection above is on the assumption that all things are equal. Birdview Travels maybe unable to control Third-party events (like Evaluation of education credentials, Language Test, processing time for provinces and embassy).
